ITW Dykem® Paint Markers

Dykem® Brite-Mark® is a general purpose permanent marker ideal for making clear, bold markings on almost any surface (i.e. metal, rubber, plastic, glass, concrete, leather, stone, wood, vinyl, and more). Its quick drying, oil-based paint withstands indoor and outdoor conditions without fading, chipping, or losing its opacity. Dykem Brite-Mark can be used to permanently identify inventory, assemblies, tools, finished products, or work-in-progress while resisting most work related abuses or compounds.

Part #	Tip	Description	Package Quantity
84 001	Fiber/Bullet	12.0 cc Blue, Dykem® Brite-Mark®	12

84 006	Fiber/Bullet	12.0 cc Red, Dykem® Brite-Mark®	12
84 007	Fiber/Bullet	12.0 cc Green, Dykem® Brite-Mark®	12

Dykem® TexPen® is one of the most rugged markers you'll ever use. It can easily write through oil, grease, and even underwater. The Dykem TexPen features a stainless-steel ball tip so you'll never have to worry about the tip wearing out before the paint is gone, even if you're writing on rough concrete or rusty metal. The thick, bold paint markings withstand extreme weather conditions without losing legibility or brightness.
